THE ENGINEERS BOARD OF KENYA (EBK) MEETS WITH GRADUATE ENGINEERS

Nairobi, Kenya – July 12, 2024 – The Management of the Engineers' Board of Kenya (EBK), led by the Registrar/CEO Eng. Margaret Ogai, held a consultative engagement this afternoon with engineering students and Graduate Engineers.

The group of about 30 students and graduate engineers submitted a memorandum outlining proposals on how the Board can better serve its stakeholders to improve the working environment for engineers.

This meeting highlights EBK's dedication to creating a dynamic and progressive work environment for all engineers. During the meeting, the team engaged with the Board to discuss strategies for enhancing the profession and practice of engineering.

A comprehensive response, including specific actions and a timeline for implementing the proposed suggestions, will be communicated in a week's time.

The Board commits to continuously engaging our engineers and addressing their concerns while enhancing professionalism to deliver safe and effective engineering infrastructure, systems, and processes for our citizens.

About EBK:

The Engineers Board of Kenya ("the Board"), is a statutory body established under Section 3(1) of the Engineers Act, No.43 of 2011 ("the Act"). The Board has the overall mandate of registration and licensing of engineers and engineering consulting firms, developing, and regulating of engineering practice in Kenya.
